Laredo R, Monserrat L, Hermida-Prieto M, Fernández X, Rodríguez I, Cazón L, et al. Beta-Myosin Heavy-Chain Gene Mutations in Patients With Hypertrophic Cardiomyopathy. *Rev Esp Cardiol.*2006;59:1008-18. In the Spanish abstract of this article and in the second column of page 1012 in the Spanish text, in the results, where it says "Había antecedentes de muerte súbita en 9 familiares" it should say "Había antecedentes de muerte súbita en 8 familiares...", which is consistent with the sum of patients listed and with the table data. This is stated correctly in the English version.
